Product Collection	Intel® 8 Series Chipsets
Code Name	Products formerly Lynx Point
Status	Launched
Launch Date ?	Q2'13
Supported FSBs ?	N/A
FSB Parity ?	No
Lithography ?	32 nm
TDP ?	2.7 W
Recommended Customer Price ?	

Supplemental Information

Embedded Options Available ?	Yes
Conflict Free ?	Yes
Datasheet	View now
Product Brief	View now

[Learn how Intel is pursuing conflict-free technology.](#)

Graphics Specifications

Integrated Graphics [‡] ?	No
Graphics Output ?	VGA
Intel® Clear Video Technology ?	Yes
# of Displays Supported [‡]	3

Expansion Options

PCI Support ?	No
PCI Express Revision ?	2.0
PCI Express Configurations [‡] ?	x1, x2, x4
Max # of PCI Express Lanes ?	8

I/O Specifications

USB Revision ?	3.0/2.0
# of USB Ports	14

Total # of SATA Ports ?	6
Max # of SATA 6.0 Gb/s Ports	4
Integrated LAN ?	No
Integrated IDE ?	No
Integrated SAS ports	No
PCIe* Uplink ?	No

Package Specifications

Max CPU Configuration	1
Package Size	20mm x 20 mm x1.573mm
Low Halogen Options Available	See MDDS

Advanced Technologies

Intel® Virtualization Technology for Directed I/O (VT-d) † ?	Yes
Intel® HD Audio Technology ?	Yes
Intel® Rapid Storage Technology ?	Yes
Intel® Smart Connect Technology ?	Yes

Security & Reliability

Anti-Theft Technology ?	Yes

All information provided is subject to change at any time, without notice. Intel may make changes to manufacturing life cycle, specifications, and product descriptions at any time, without notice. The information herein is provided "as-is" and Intel does not make any representations or warranties whatsoever regarding accuracy of the information, nor on the product features, availability, functionality, or compatibility of the products listed. Please contact system vendor for more information on specific products or systems.

Intel classifications are for informational purposes only and consist of Export Control Classification Numbers (ECCN) and Harmonized Tariff Schedule (HTS) numbers. Any use made of Intel classifications are without recourse to Intel and shall not be construed as a representation or warranty regarding the proper ECCN or HTS. Your company as an importer and/or exporter is responsible for determining the correct classification of your transaction.

Refer to Datasheet for formal definitions of product properties and features.

“Announced” SKUs are not yet available. Please refer to the Launch Date for market availability.

‡ This feature may not be available on all computing systems. Please check with the system vendor to determine if your system delivers this feature, or reference the system specifications (motherboard, processor, chipset, power supply, HDD, graphics controller, memory, BIOS, drivers, virtual machine monitor-VMM, platform software, and/or operating system) for feature compatibility. Functionality, performance, and other benefits of this feature may vary depending on system configuration.

“Conflict free” and “conflict-free” means “DRC conflict free”, which is defined by the U.S. Securities and Exchange Commission rules to mean products that do not contain conflict minerals (tin, tantalum, tungsten and/or gold) that directly or indirectly finance or benefit armed groups in the Democratic Republic of the Congo (DRC) or adjoining countries. Intel also uses the term “conflict-free” in a broader sense to refer to suppliers, supply chains, smelters and refiners whose sources of conflict minerals do not finance conflict in the DRC or adjoining countries. Intel processors manufactured before January 1, 2013 are not confirmed conflict free. The conflict free designation refers only to product manufactured after that date. For Intel Boxed Processors, the conflict free designation refers to the processor only, not to any additional included accessories, such as heatsinks/coolers.

The Recommended Customer -unit purchase quantities, and are subject to change without notice. Taxes and shipping, etc. not included. Prices may vary for other package types and shipment quantities, and special promotional arrangements may apply. If sold in bulk, price represents individual unit. Listing of these RCP does not constitute a formal pricing offer from Intel. Please work with your appropriate Intel representative to obtain a formal price quotation.

System and Maximum TDP is based on worst case scenarios. Actual TDP may be lower if not all I/Os for chipsets are used.

Low Halogen: Applies only to brominated and chlorinated flame retardants (BFRs/CFRs) and PVC in the final product. Intel components as well as purchased components on the finished assembly meet JS-709 requirements, and the PCB / substrate meet IEC 61249-2-21 requirements. The replacement of halogenated flame retardants and/or PVC may not be better for the environment.

WARNING: Altering clock frequency and/or voltage may: (i) reduce system stability and useful life of the system and processor; (ii) cause the processor and other system components to fail; (iii) cause reductions in system performance; (iv) cause additional heat or other damage; and (v) affect system data integrity. Intel has not tested, and does not warranty, the operation of the processor beyond its specifications. Intel assumes no responsibility that the processor, including if used with altered clock frequencies and/or voltages, will be fit for any particular purpose. For more information, visit <http://www.intel.com/content/www/us/en/gaming/overclocking/overclocking-intel-processors.html>
